about Aluminium

Invest in Kronoby's Aluminium Ecosystem

Strategic location

Gateway to global markets via port, airport and rail, at the heart of a leading export region

Developed Infrastructure

Reliable transport links, major highways and robust grid connections supporting sustainable growth

Renewable Energy

Abundant access to clean, renewable energy enabling competitive and future-ready investments

Knowledge Cluster

A strong ecosystem of industry, expertise and innovation driving business success

Arctial is planning a low-carbon aluminium production in Kronoby, Finland

- Smelter capacity: 610,000 tons/year
- Liquid metal supply: major cost advantage for downstream production
- Rolling mill: 170,000 tons/year of rolled aluminium
- Investment decision: Autumn 2027

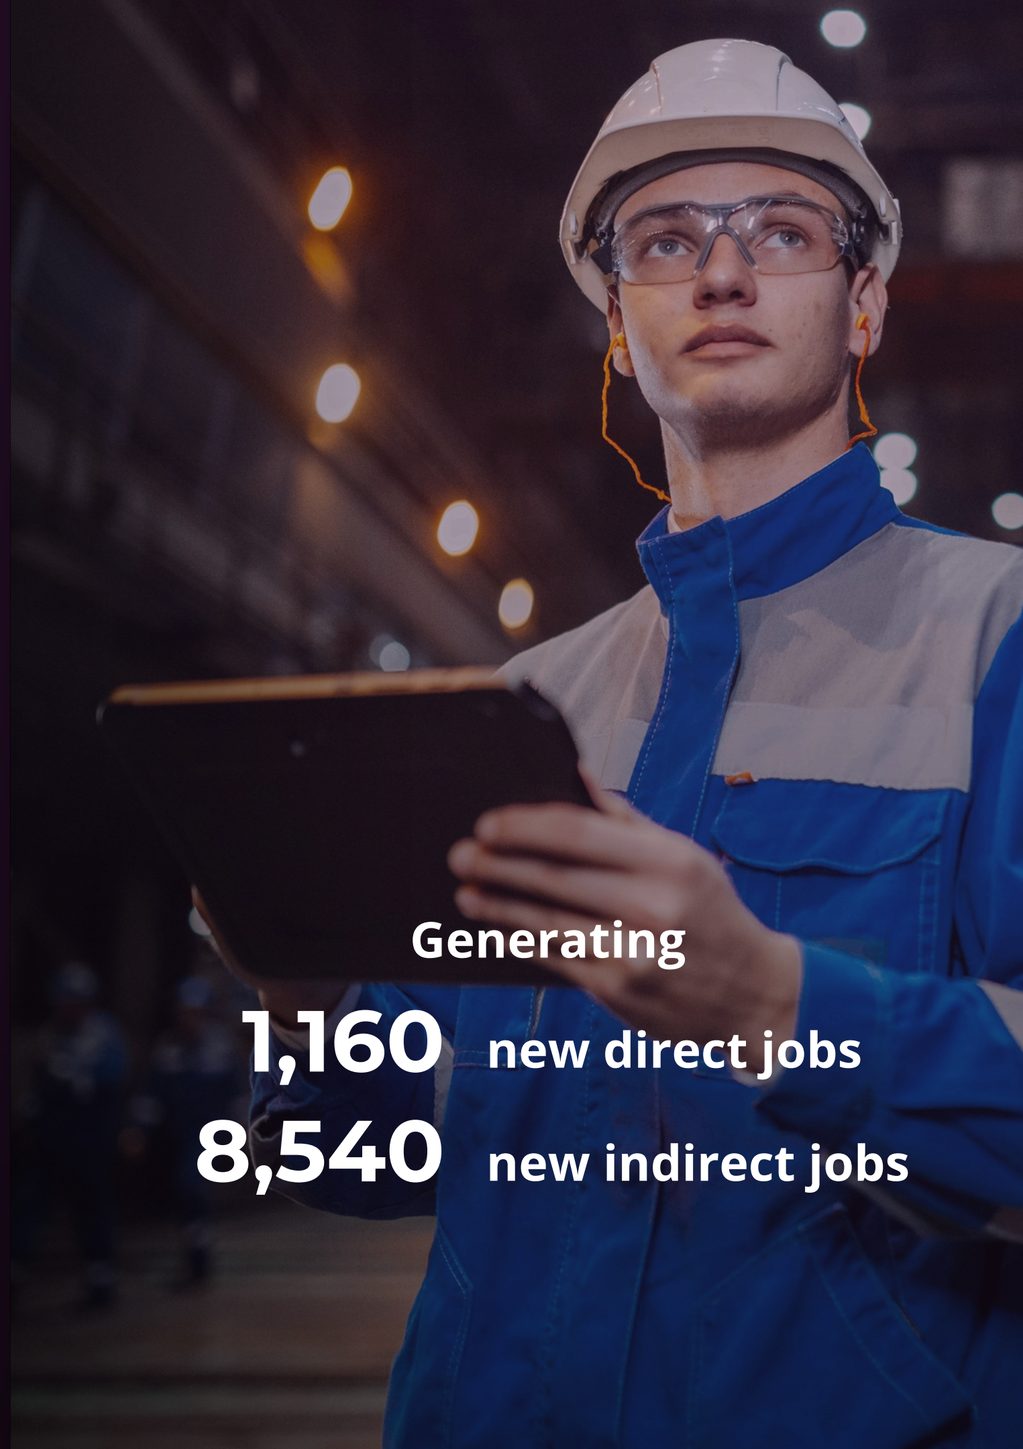

This offers unique opportunities for subcontractors and new businesses

Aluminium is

✓ **Lightweight and strong**

✓ **Corrosion-resistant**

✓ **100 % recyclable**

Generating

1,160 new direct jobs

8,540 new indirect jobs

Cheaper. Smarter.
More Sustainable.

40 % smaller carbon footprint than the European average

75 % smaller carbon footprint than the global average

Thanks to the use of renewable energy and modern technology

”

We offer reduced costs, easy access to raw materials, and close proximity to key markets

Kronoporten Industrial Park

Kronoporten is one of the most ambitious industrial development areas in Finland, designed to support the green transition and large-scale industrial investments. Positioned at the intersection of world-class logistics, renewable energy and industrial expertise, the area offers exceptional opportunities for companies looking to grow in a dynamic and future-oriented business environment.

The ongoing and planned investments in and around Kronoporten create a unique ecosystem where businesses can benefit from proximity to suppliers, customers, infrastructure and a highly skilled workforce.

- 60 hectares zoned
- Potential growth zones identified
- Detailed zoning plan approved in 2025
- Investment decision to be made in 2027

Everything Closeby:

- Port
- Airport
- Power Grid
- Railroad

And More Is To Come:

- Bypasses
- Hydrogen Gas Pipe
- Bicycle Route

We Create Space for You and Your Company

Whether you need a ready-to-build plot, room for future expansion or a location tailored to your operations, **Kronoby offers flexible opportunities for growth**.

Located next to Kronoporten and one of Finland's most significant industrial investment corridors, we identify synergies, adapt solutions to your needs and plan for long-term development. New growth zones have been identified, enabling us to continue zoning and developing land according to the requirements of future investors.

Explore our available plots

A brand new industrial area – Boholmen – is being zoned in close approximity to Kronoporten. Let us know, if you are interested to hear more about it.

Logistics Centre Kronoby

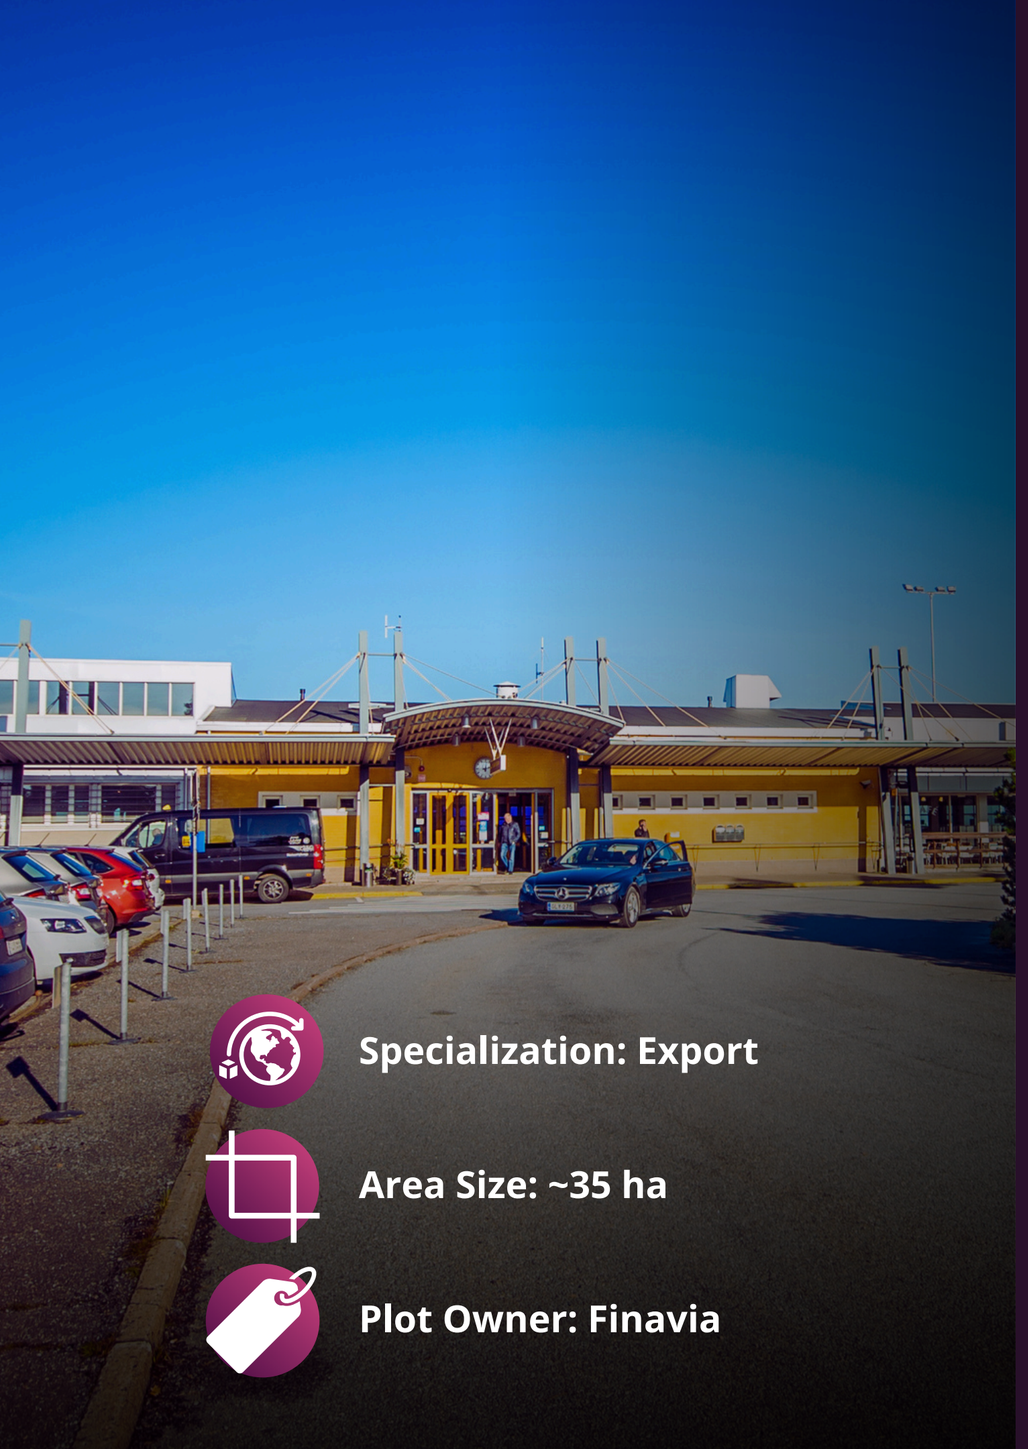

This strategically located area forms **the pulsating logistical heart of Kronoby**. It is situated directly along National Road 8 and offers excellent connections in all directions. Distances to the airport, railway, and ports are equally short. The area offers strong potential for synergies with both existing companies and the multi-billion-euro investments planned just north of the area.

Specialization: Logistics

Plot sizes: 9,000–19,600 m²

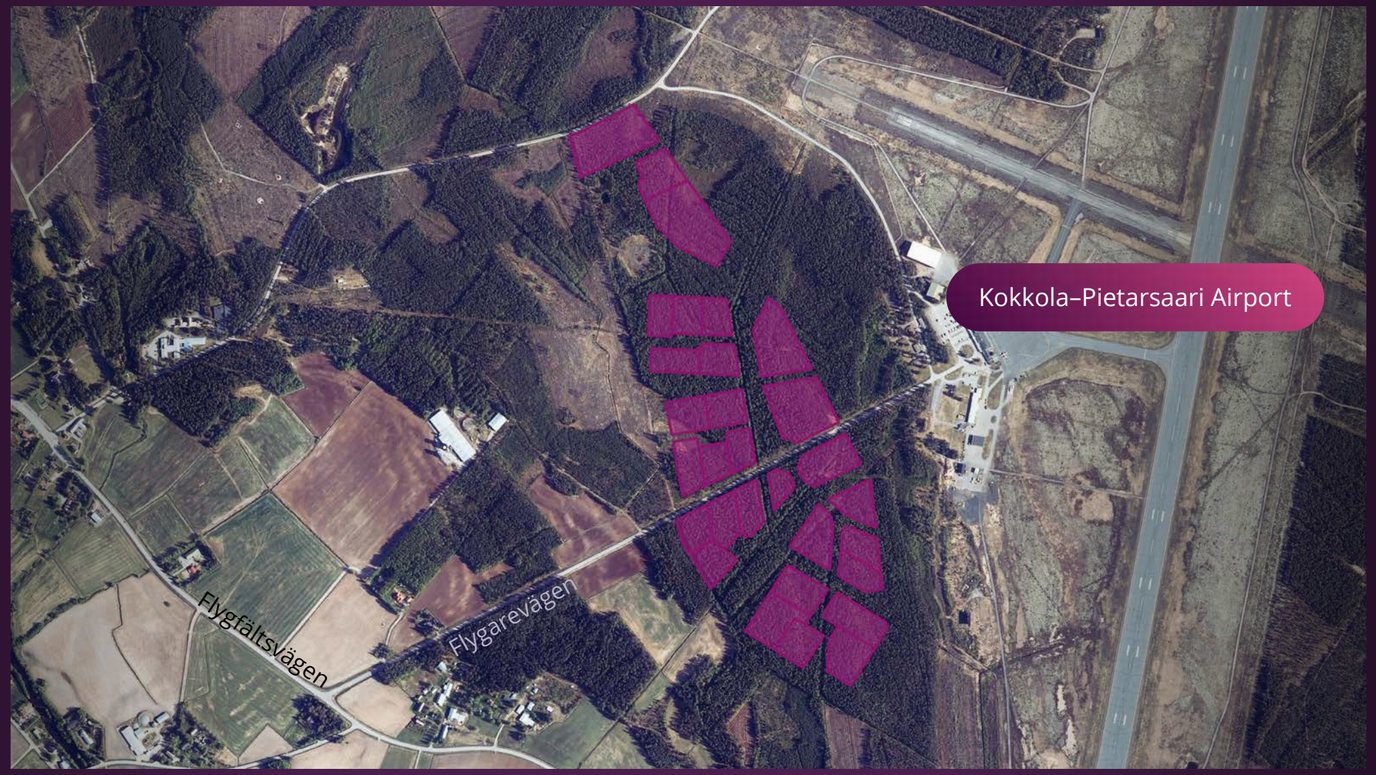

Specialization: Export

Area Size: ~35 ha

Plot Owner: Finavia

The Airport Area

This industrial area is located **right next to Kokkola–Pietarsaari Airport** and therefore offers unique competitive advantages. The area has the potential to be developed for a wide range of uses, including office spaces and storage facilities. There is an opportunity to combine several plots to tailor the area to different types of operations. The area is suitable for small-scale industry.

Kronoporten

This large-scale industrial area represents the municipality's major investment in the green transition. The entire area is currently reserved. However, within the area's immediate impact zone, new plots are being zoned that can be tailored to specific needs.

Specialization: Aluminium

Area Size: 60 ha

Do you want in on this once in a lifetime opportunity?

We offer a variety of plot options in close proximity to the site. There are zoned plots available, or if you prefer, unzoned plots can be found even closer to the site.

We tailor solutions that fit you and your company

Key industries:

- Transportation and logistics
- Construction
- Marine industry
- Packaging
- Electronics and lighting
- Defence
